

# Residential Packages Being Discontinued in 2022

eAPB2135 | DATE: December 21, 2021

## Residential Packages Being Discontinued for 2022

After extensive review, several Impact (i2) residential package unit skus have insignificant sales annually.

Due to this, the following **3-Phase** Impact (i2) sales families and associated models will be discontinued: DCZ6, DCY4 and TCY4.

Amongst other things, this effort will help streamline production in the plant. Our objective is to provide you with all the necessary information, so that you can plan accordingly for the 2022 season.

### Final Order Date:

12/21/21

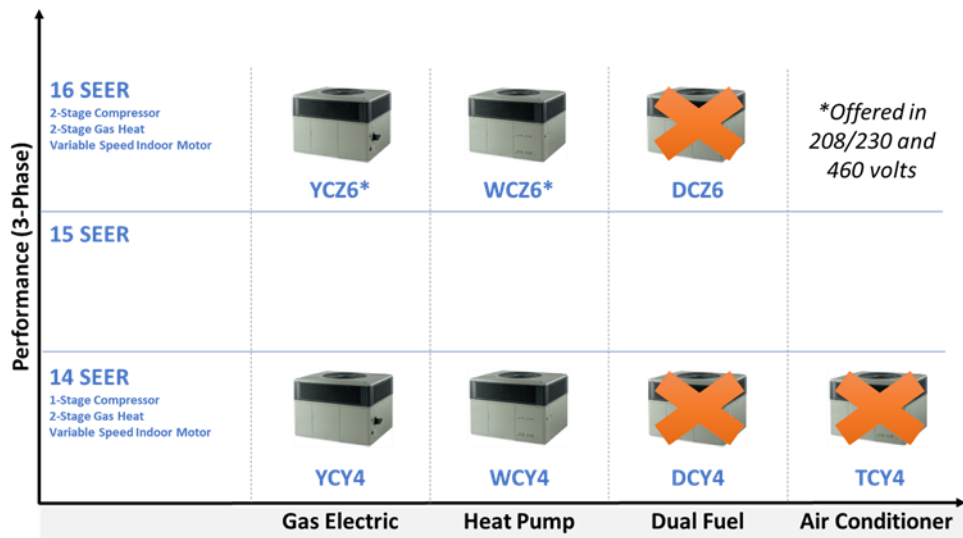

All orders currently in the system will be produced. Future orders should be transitioned to Precedent or Foundation respectively.

### WARRANTY:

No Change

### RATINGS:

AHRI ratings available at [AHRIDirectory.org](http://AHRIDirectory.org)

### Models Being Discontinued:
