

Model Change for 4TXC Coil

(4TXCB004DS3HCA to 4TXCB004DS3HCB)

eAPB2105 | February 16, 2021

IMPORTANT DATES

First Production:
 Immediately

First Ship:
 Immediately

As we continue to build a more resilient supply chain for coil manufacturing, we have shifted production of **4TXCB004DS3HCA** to new model number **4TXCB004DS3HCB** in Vidalia as planned. The primary benefit of this move is to drive incremental capacity for all coils which will bring improved availability in 2021 and beyond. Given the unprecedented supply chain challenges we have been facing, Vidalia has begun production of the 4TXCB004DS3HCB with an unpainted cabinet as shown below. This change is intended to be short term and we will notify you once we are able to fully transition to a painted cabinet on this model. This change is limited to one model to ensure minimal impact while maximizing capacity throughout the coil product line.

Things to note:

- All coils produced with an unpainted galvanized cabinet will include a purple dot on the packaging (shown below)
- All remaining unfulfilled customer orders against 4TXCB004DS3HCA will be transitioned to 4TXCB004DS3HCB, no action is needed from you on this
- If you have open orders that will be impacted by this, you will be notified

WARRANTY:

Non-Registered Limited Warranty:
 10 Years
