Introducing A801X – Ameristar’s new, 80% AFUE gas furnace family. With great new features such as a 34” cabinet height, 4-way multipoise design, and BTU/h options down to 26,000 this family will be a great fit in many applications. For more details regarding model offerings and dimensions, please refer to the chart shown. All of our A801X models are offered in a California, 40ng/J version - indicated by a ‘T’ in the 12th digit.

The Ameristar model family M801P will cease production

on July 2, 2019. Orders on M801P models will be filled based upon unit availability. Please see the chart on page 2 for a list of M801P models and their suggested A801X replacement.

Model Number	Low NOx Models	Input BTU/h	DIMENSIONS (INCHES)		
			H	W	D
