Ameristar is pleased to announce a new 5.0 ton PSC model. This new M4AH4P60C1C00B model will replace the current M4AH4P60B1C00A and offers the following features:

- ▶ Supports both cooling and now heating applications
- ▶ All aluminum coil
- ▶ Painted metal cabinet
- ▶ Factory installed fixed orifice with field installed R-410A and R-22 TXV kits available
- ▶ Compatible with existing MAYHTR electric heaters
- ▶ Approved for use in manufactured/mobile housing installations

Ratings are now available on the AHRI certified ratings directory. Complete ratings downloads and new model number transition tables are also available by clicking on the applicable links. Compare the cooling and heating ratings with the link above against the M4AH4P60C1C00B vs. M4AH4P60B1C00A, plus the M4AH4E61B1C00A. Reference the old to new model transition matrix below.

AMERISTAR M4AH4P MULTI-PURPOSE AIR HANDLER WITH ALL ALUMINUM COIL
