As a result of the new Department of Energy regulations, effective January 1, 2023, the **Silver 14** family of air conditioners will be impacted. The table below represents the models phasing out and the new DOE models.

On August 1, 2022, the “phasing out” items will stop production and “phasing in” items will begin production.

AHRI ratings will be loaded in phases starting April 1, 2022 and will be complete by May 1, 2022.
