Introducing New Accessory Adapter Curbs

American Standard is pleased to announce the introduction of two (2) new accessory adapter curbs (**BAYQACB114A** & **BAYQACB115A**).

These new curbs join our existing family of BAYQACB adapter curbs for light commercial package units.

These curbs will be strategically located in warehouses throughout the country to allow 48 hour or less delivery of both units and curbs together.

The new units are available now.

Why we're doing this:

- One stop shopping
- Ability to order both adapter curbs and units at same time via Job Center
- Ability to easily coordinate shipment of units and accessories

How this impacts our customers:

- Competitively priced curbs with coordinated shipments
