

COMPRESSOR CHANGES TO SELECT A/C MODELS

eAPB2108 | March 2, 2021

Our 2 ton 2-stage A/C models will receive a 14th digit model number change, beginning production on March 15, 2021. The new models will begin shipping once inventory of the old model numbers has been depleted.

The new models include the following changes:

- New compressor
- Updated Breaker Sizing
- Removal of Rectifier
- Addition of Time delay relay
- Addition of High Temp switch
- Addition of Harness
- Change in Wiring Diagram
