

**eAPB1831**  
**August 21, 2018**

## **IMPORTANT DATES**

**August 30, 2018**

New Proposition 65 warning system will be required for products manufactured after **August 30, 2018**

## **California Proposition 65 Warning**

Due to regulatory requirements associated with California Code of Regulations, Prop 65, American Standard is providing notice on products sold into the state that may result in an exposure to chemicals, which are known to the State of California to cause cancer or birth defects or other reproductive harm or both.

Beginning August 30, 2018, the old warning system will expire and the new warning system will be required for products manufactured on or after August 30, 2018. Products manufactured before August 30, 2018 will not need new warnings if they meet the requirements that were in effect at the time of production.

For products listed in Table 1 (see page 2) sold over the internet to contractors, a warning must be provided by including either the warning or a clearly marked hyperlink using the word “**WARNING**” on the product display page, or by otherwise prominently displaying warning to the purchaser prior to completing the purchase.

For catalog purchases, a warning that complies with the content requirements must also be provided in the catalog in a manner that clearly associates it with the item being purchased for sale into the state.

Below is an example of one of the warnings associated with the listed products in Table 1:

For exposures to both listed carcinogens and reproductive toxicants:

**WARNING: This product can expose you to chemicals including lead, which are known to the State of California to cause cancer and or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).**

***Per California Code of Regulations, it is your responsibility to provide these warnings for these products online and/or catalogs for sales into the state.***
