

NEW FLAT COIL MODEL [4PXFH] INFORMATION

eAPB2039 | December 18, 2020

IMPORTANT DATES

FIRST ORDER:

January 8, 2021

FIRST SHIP:

February 5, 2021

WARRANTY:

10 years; No
Registration Required

Effective on January 8th, 2021 the new flat coil model [4PXFH] will be available for ordering. As a reminder, all existing orders as of October 29th, 2020 are being filled through our Trenton, NJ facility. The current backlog on the old model [4TXFH] is expected to be cleared by the end of February 2021.

The 4PXFH model will initially launch with a copper-aluminum construction and will migrate to all-aluminum at a later date. The coils will include our 10 year no registration limited warranty and will include a factory installed TXV. There are dimensional differences in some models, and those differences are indicated in **Figure 1.1** below. Although most differences are nominal, we would recommend reviewing the full technical information on ASDealerNet which will be published before the end of 2020.

Figure 1.2 on the following page shows the size comparison from current 4TXFH to the new 4PXFH model from Aspen.

To reiterate, this change has been implemented to allow for increased capacity of flat coils (5x capacity through Aspen partnership) and to free up manufacturing capacity for the 4TXC/4PXC/4PXA models. These changes will enable us to better serve you and your customers through highly improved availability and service levels in 2021 and beyond.
