American Standard is pleased to announce the launch of new Platinum 18 and Platinum 20 AccuComfort™ variable speed heat pump models.

These new models have been developed in preparation for the future launch of an all new lineup of American Standard Link communicating equipment coming in 2022. To prepare the channel for this future release, these models have dual capability to operate with all existing variable speed indoor equipment and controls as well as the future release of American Standard Link air handlers and smart thermostat.

The table below details the models that are phasing out as well as their replacements.
