

AMERICAN STANDARD®

Diagnostics Command Center VIRTUAL TOUR!

NOW'S YOUR CHANCE TO ATTEND!

**Learn all about the
NEW Command Center
in Tyler, Texas!**

WHAT IS IT?

For those who are not able to see the Command Center in-person, you can now get the full experience through our virtual tour. We're offering scheduled opportunities for you to get a detailed walk-through of the Command Center right alongside the American Standard Diagnostics team.

WHAT WILL I LEARN?

Your one-hour guided tour will cover the available digital tools associated with the American Standard Diagnostics platform and show you a real-time live view of the Command Center in action. Take this opportunity to gain a full understanding of our new cloud-based software solution—available exclusively to our dealers. Ask any questions along the way and feel confident and prepared to use and talk about this tool with others.

Guided walk-through

This isn't just a video tour—the American Standard Diagnostics team will personally guide you through the facility in real-time and answer any questions you have along the way.

It's free!

We want to be able to show you the features and advantages of our facility no matter where you are located—all at no cost to you!

A deeper look into the American Standard Diagnostics Command Center

Get first-hand insight into the Command Center's functionality and purpose.

WANT MORE?

Participate in a training class after the tour!

Take an in-depth look at the functionality and digital tools associated with the American Standard Diagnostics platform. Plus, a look into digital strategy implementation with American Standard Home and smart thermostats.
