

Tyler Outdoor Product Labeling: Production Update

eAPB2120 | June 29, 2021

IMPORTANT DATES

Please alert all shipping, receiving, and warehouse personnel to the following information.

Customers may notice a small deviation to our normal carton labelling. Due to component availability, a small quantity of units will be produced with a different model/serial label format. Important details are listed below.

WARRANTY:

Residential Application
Compressor, Coil, Parts—
10 years

No Registration required

Important Highlights:

1. This change affects the pink RFID labels.
2. Temporarily these labels will be in a different format, and will NOT wrap around the corner of the carton (the label will only be on one side of the carton).
3. The new labels will NOT have the perforated/removable section that some customers use for their recording purposes. We apologize for the inconvenience this change may cause to your normal processes.
4. An example of the new/temporary label is shown in the picture below.
